

# TIRE CUTTERS HD-BTC/HD-BTC/G

# Branick®

Proudly Made  
in the U.S.A.

## One revolution is all it takes!

Reduce wear on tire shredder blades and slice 80 tires an hour! Tires cut in half can easily stack by nesting together, reducing occupied floor space by 60%! Double the number of tires in a single load to decrease scrap tire loads. Simple one person operation and the ability to handle a large range of tires make this versatile machine a great addition to your tire shop. Offered in both electric and gas powered models.

HD-BTC - Electric-powered model  
HD-BTC/G - Gas-powered model

### FEATURES

High-strength steel blade..... Cuts through a radial truck tire in one revolution  
25 gallon oil reservoir..... Keeps cutter running cool and efficient
