

# TIRE INFLATOR BLOCKHEAD PRO

# Branick®

## Two Year Warranty and Unit is Waterproof!

Over 14,000 shops worldwide use the **UL Certified** BlockHead Pro. With traditional inflation tools, accuracy is an issue and the lack of durability is a nuisance. With 145psi output, the BlockHead Pro offers consistent accuracy, time saved due to faster calibration of tires, and money saved on inaccurate, disposable pen gauges. It also may be the only inflator on the market with a TWO year warranty. Looking for an auto inflator for your service truck? This unit is also waterproof so mount it on your truck and go.\*\* There are several ways to mount the BlockHead Pro depending on needs, and with the self-coil hose, you'll have fewer overhead hose reels. This auto inflator saves time - no more back and forth from the valve stem, and provides versatility, accuracy and safety to your shop.

**Mount to tire safety cage**

**Utilize existing hose reels**

**Manifold for 4-6 tires simultaneously\***  
\*Manifold and valve kit required
