280 LBS.

- Home Use
- Hobbyist

Individual Professional Use

This heavy duty, single stage compressor is for those jobs too big for the smaller units. The two cylinder pump delivers more air and has a more rapid rate of recovery than 115 volt units. It has an all cast iron ball bearing type pump, with honed cylinders and three-ring pistons. The electric motor has a heavy duty capacitor start and is 230 volt single phase. The unit has a totally enclosed OSHA approved Steel Belt Guard and is completely pre-wired and ready to run.

3 HP Single Phase 230v Motor

- 16.6 Running amps (Requires 30 amp breaker)

2 Cylinder Pump

- 932 RPM
- 10.5 CFM @90psi
- Cast iron ball bearings

60 Gallon Vertical Tank

- ASME Certified

Don't Forget an Installation Kit!

- INSTALL-60V
- Steel Braided Flex Hose
- 4 Mounting Pads
- 4 Anchor Bolts
