

HEAVY-DUTY COMBINATION BRAKE LATHE

The BL-2500 Brake Lathe. It's powerful. It's fast. It's versatile, and most importantly it's accurate. Machines drums, rotors and flywheels for passenger vehicles, as well as light and medium sized trucks.

BL-2500
Brake lathe
Bench included

Features BL-2500

- ◆ Variable spindle speed and cross feed speed provide a perfect finish
- ◆ Cut machining time on most rotors and drums in ONE MINUTE
- ◆ Change spindle speed and feed rates with a simple control box
- ◆ Special carbide tips last longer and finish cleaner
- ◆ Mounted tool board for convenient access to adapters and tools
- ◆ Optional tooling packages available for specific requirements

SPECIFICATIONS

	BL-2500
Spindle speed	70 - 320 RPM
Drum diameter	6" - 28" (152mm - 711 mm)
Max. drum depth	9"
Disc diameter	7" - 24" (180mm - 610mm)
Max. disc thickness	2.85" (73mm)
Disc surface width capacity	5"
Rotor feed speed/rev	0"-.026" (0mm - 0.66mm)
Flywheel capacity	6" - 28"
Flywheel surface capacity	6"
Std. arbor (1") load capacity	68kg - 150lbs.
Electrical requirements	110 vac 1 phs
Shipping weight	604lbs.
