

**User friendly
LED Touch Panel Keypad**

**Exclusive!
Laser & Light Indicators
for unbalanced weight position**

**Convenient
Speed-Nut Mounting**

**Foot Pedal Braking System for
accurate weight applications**

Feature List

1. **User Friendly Operation** - LED, touch-panel Keypad with easy to read icons assisting operators utilizing all balancing functions.
2. **Large Rim Diameter Balancing** - able to balance up to 28" Rim diameter & 44" overall Wheel Diameter.
3. **Multi-Mode Vehicle Balancing** - standard with SUV, Car & Motorcycle balancing modes.
4. **Low-RPM Operation** - at 140 RPM, the balancer's life is further extended for sensitive electronics & moving components, all while providing highly accurate wheel balancing.
5. **Ease-Of-Use** - with manual measurement input for distance & diameter with 5 ALU Standard modes and 2 ALU Smart modes.
6. **Exclusive Laser Indicator** - lights up automatically at the unbalance weight position under ALUS mode in the 6 o'clock wheel position.
7. **Integrated Measurement Acquisition Wand** - allows for ease of acquiring measurement data with a retractable, stylish measuring tool, integrated into the machine.
8. **Light Indicator** - illuminates inside of wheel automatically at the unbalanced weight position, for improved wheel weight applications.
9. **Foot Pedal Braking System** - conveniently secures the wheel in the unbalanced position to accurately apply balance wheel weights.
10. **Extra Long, Heavy Duty Balancing Shaft** - the 12" long, 40mm diameter balancing shaft accommodates wide range of wheels, including unique aftermarket wheels of different sizes & shapes.
11. **Speed-Nut Mounting** - the Speed-Nut allows for quick & efficient wheel mounting, easily securing the wheel to the spindle with convenient lead-in screw.
12. **Multi Pocket Wheel Weight Shelf** - 14 articulated pockets, over 1.5" deep, allowing plenty of storage for weights & tooling.
13. **Large Wheel Shroud** - the large 38" wheel hood prevents debris from flying off the tire while in use.
14. **Power Saving Mode** - automatically puts machine in stand-by mode after 5 minutes of non-usage.
