## NON-COMBUSTIBLE Outdoor Safety Lockers

*Safe and secure hazardous/chemical storage solution to protect people and the environment*

### Standard Features

- Heavy gauge steel construction
- Secondary containment—leakproof all welded sump
- Galvanized steel grate flooring
- 42-in (1.07-m) wide steel door system with 3-point lock hardware
- Natural draft ventilation
- NFPA 704 diamond decal
- Multiple static grounding connections
- Anchoring plates for maximum hold down protection
- Chemical and UV resistant coating, inside and out
- Forklift channels for easy relocation
- Available in 2-, 4-, 6-, 9-, 12-, and 16-drum capacities
- Meets EPA, NFPA 30 and NFPA 1 requirements
- FM-approved
- 15-year structural warranty

6-Drum No. 911060

2-Drum No. 911020

16-Drum No. 911160

Explosion-relief panel

Constructed with heavy gauge steel and built-in secondary containment, every non-combustible locker is fully compliant, including meeting EPA 40 CFR, NFPA 30 and NFPA 1 regulations. FM-approved and backed by a 15-year structural warranty, this locker is your solution for outdoor storage of 55-gallon (200-liter) hazardous chemical drums, including flammable and combustible liquids. Lockers are also available with FM-approved explosion relief panels that release at 20 psf to reduce the potential damage associated with an explosion. Customize your locker to meet specific applications with a variety of optional features and accessories, including loading ramp, shelving, grounding kit, fire protection and lighting packages.

Outdoor safety lockers promote safe storage, handling, and disposal practices that minimize contamination of hazardous chemicals. Proper chemical storage not only reduces poison hazards or other accidents that affect our environment and communities, but also prevents unwanted fines.

Protect your hazardous materials from accidental contamination, while protecting the environment and your employees. Insurance carriers require safe chemical storage practices to be put into place before granting or renewing policies.

Proudly made in the USA of US and imported parts.

**Ask about our Agri-Turf, as well as our 2- and 4-Hour Fire-Rated lockers.**

Note: Door height on 2- and 4-drum models is 51-in (1.30-m) high and 80-in (2.03-m) high on 6- through 16-drum models.

\*Dimensions include mounting plates and door hardware.

In most instances, locker sizes 2- through 6-drum are available to ship via a closed container truck, which can potentially reduce freight costs as compared to flat bed shipping alternatives.

| 16-drum         |               |              |              |              |                                      |              |  |              |                               |              |                                |              |  |              |                         |              |

† These accessories must be purchased in conjunction with a locker to ensure proper installation and to retain FM approval.

\*\* Shelving is not available on models with explosion relief panels. Shelf package for 2- and 4-drum models (915101) will limit the ability to load locker to full drum capacity.

Note: Due to space constraints in the 2- and 4-drum models, shelving and interior light packages cannot be ordered together.

## Accessory Descriptions

**Grounding Kit**  
**Model 915505**  
Kit comes with rod – 5/8-in (16-mm) diameter x 8-ft (2438-mm) L, wire and connector

**Loading Ramp**  
**Model 915001** – 2-drum:  
48-in (1219-mm) W x 120-in (3048-mm) L  
**Model 915003** – 4- through 16-drum:  
48-in (1219-mm) W x 88-in (2235-mm) L  
Steel with anti-skid yellow paint

**Shelving**  
**Models 915101 - 915105**  
Galvanized steel shelving. Two-tier, 16-in (406-mm) wide with mounting brackets—back wall only.  
  
Not available on locker models with explosion relief panels. Shelf package for 2- and 4-drum models (915101) will limit the ability to load locker to full drum capacity.

**Fiberglass Grate with Sump Liner**  
**Models 915201 - 915211**  
High density polyethylene (HDPE) sump liner and fiberglass grate flooring for acid and corrosive chemical spill resistance

**Basic Fire Protection System**  
**Model 915401** – 2-drum  
**Model 915403** – 4- through 16-drum  
BC Type, FE-227 extinguisher unit, ceiling mounted and fuse linked

**Dry Chemical Fire Suppression System**  
**Model 915405**  
• FM-approved, UL Listed, ABC Type, dry chemical system with agent cylinder  
• One pull station and means of remote annunciation  
  
Only available on 6-drum lockers or larger due to size restrictions.

**Interior Light and Fan Package**  
**Model 915501**  
• Interior explosion-proof light with exterior on/off switch - UL Listed  
• Explosion-proof mechanical ventilator tied to light switch for forced vapor removal  
• Explosion-proof conduit and wiring with seal-offs

**Exterior Light**  
**Model 915503**  
Explosion-proof and photocell activated  
  
Only available when ordered with Interior Light/Fan Package 915501.

## Approvals and Compliance Key

|           |   |
|-----------|---|
| <b>FM</b> | FM Global tested and approved   |
| <b>N</b>  | Complies with National Fire Protection Association (NFPA) Flammable and Combustible Liquids Code 30 |
| <b>A</b>  | Complies with NFPA 1 Fire Code  |
| <b>E</b>  | Complies with Environmental Protection Agency (EPA) Regulations                                     |
