

20 Ton Electronic Wheel Lift System (Set of 4)

Portable design eliminates the need for a dedicated bay. No more time wasted removing aerodynamics or fairings from the vehicle. The perfect solution for shops with low ceilings. 100% air operated.

FEATURES:

- Electronically synchronized
- Handheld remote control
- Automatic Down Stop system
- Combination wheel lifts and stands
- US Patent # 9,580,284
- ***Now available in wireless model to lift entire vehicle***
