

Heavy Duty Tire Inflator

PCL offers the highest quality, most reliable, extremely durable and cost effective equipment for fast and accurate tire inflation. Suitable for all tire inflation applications from car to truck, bus and specialist applications.

The MK3 heavy duty gauge has a lightweight aluminum body and an easy to read magnified linear scale. It allows you to inflate and deflate while staying engaged on the tire valve stem. In side by side comparisons it is over 30% faster than anything on the market today. Calibrated 0-138 psi in 2 psi units.

Why choose PCL:

- Extremely accurate with testing standards within +/- 2psi
- Compliant to the current California Tire Pressure Proposal
- Each gauge comes with its own individual tested calibration certification
- Standard 1 year warranty
- In a side by side comparison – 30% faster than anything on the market today
- Inflate and deflate tire pressure while staying engaged on the tire valve stem
- Can inflate tires up to 138psi
- Truck Tire model can inflate tires up to 174psi
- High Pressure model can inflate up to 300psi

Technical specifications

DIMENSIONS

Length	10.4"
Width	1.9"
Weight	1.34lbs

ENVIRONMENTAL

Operating	-10°C to 60°C
Storage	-30°C to 80°C

PRESSURE MEASUREMENT

Accuracy	Exceeds proposed California 2 psi standard
Reading Accuracy	2psi
Max Inflation Pressure	138psi
Max Inlet Pressure	232psi

INFLATION SPEED

Inflation flow	18 cfm @ 190psi
----------------	-----------------

ALG3A09

Hose Length	Chuck Type	Pressure Range
21"	Twin angled	0-138psi

ALG3A098

Hose Length	Chuck Type	Pressure Range
21"	Single lock-on	0-138psi

ALG3A099

Hose Length	Chuck Type	Pressure Range
6'	Single lock-on	0-138psi
