

# Truck Tire Inflator

**On the face of it, the Truck Tire Inflator looks exactly the same as the Heavy Duty Tire Inflator, which has become industry-standard across the globe.**

The big difference is that the Truck Tire Inflator inflates up to 174 psi, a substantial hike from the already powerful 138 psi.

The Truck Tire Inflator is a gauge which not only answers the market need for a higher pressure inflator but also provides one which can withstand harsh tire shop environments.

The reliable and versatile Truck Tire Inflator, with its aluminum die cast body and linear gauge represents the best product on the market for both indoor and outdoor applications, even in extreme weather with tolerances within the California 2 psi Accuracy Standard.

## Why choose PCL:

- Extremely accurate with testing standards within +/- 2 psi
- Compliant to the California 2 psi standard
- Each gauge comes with its own individual tested calibration certification
- Standard 1 year warranty
- In a side by side comparison – 30% faster than anything on the market today
- Inflate and deflate tire pressure while staying engaged on the tire valve stem
- Can inflate tires up to 174 psi

# Technical specifications

## DIMENSIONS

Length	10.4"
Width	1.9"
Weight	1.34 lbs

## ENVIRONMENTAL

Operating	-10°C to 60°C
Storage	-30°C to 80°C

## PRESSURE MEASUREMENT

Accuracy	Exceeds proposed California 2 psi standard
Reading Accuracy	2 psi
Max Inflation Pressure	174 psi
Max Inlet Pressure	232 psi

## INFLATION SPEED

Inflation flow	18 cfm @ 190 psi
----------------	------------------

ALG4A09

Hose Length	Chuck Type	Pressure Range
21"	Twin angled	0-174 psi

ALG4A091

Hose Length	Chuck Type	Pressure Range
21"	Single lock-on	0-174 psi

ALG4A092

Hose Length	Chuck Type	Pressure Range
6'	Single lock-on	0-174 psi
